MEMORANDUM

Ever since its inception, the Department of Power was in need of a yardstick for estimation and assessment of manpower requirements for Operation and Maintenance of all the systems and its associated assets in use by the Department. In absence of this yardstick, the Department has not been able to make optimum deployment of man-power in the Department.

With the massive electrification of rural villages, and addition of new infrastructure under various schemes of RGGVY, APDRP, R-APDRP, NEC, NLCPR, SPA, state plan projects as well as special PM’s package, it has been realized that the existing establishment is not sufficient to provide the required man power to operate and maintain these systems. Due to absence of a yardstick, the department is neither able to assess additional requirement of man power, nor able to make optimum deployment of the available human resources.

A committee of officers was appointed by the government under the Chairmanship of CE (Power), TPMZ vide order No. PWR/E-2401/2760-70 Dtd.13/6/2013 to recommend a policy paper on W/C establishment. On the basis of recommendations of the Committee, the draft policy is under process and pending with the Government. A yardstick has also been proposed by that committee as an attachment to the said policy paper.

During the consultations with the then Principal Secretary (Power), it was felt necessary that the existing strength of all Casual & W/C employees are re-deployed and fresh assessment is done before the proposed Rules on W/C establishment was placed before the government for approval. In view of that position, the department needs to have the yardstick in place for the purpose of re-deployment exercise as well as assessment of asset wise, man-power in the department.

In view of the aforesaid position, in exercise of the power conferred under Govt. order No.PWRS/E-2317/2012/4672-85 Dtd. 19.11.2012, the undersigned notifies the enclosed interim yardstick as adopted for estimation and re-deployment of existing man power under work charged establishment of the Department of Power.
The following guidelines shall be followed with immediate affect while adopting this interim yard stick in the Department :-

1. The draft yardstick (enclosed as schedule-II of the draft) shall be used for the purpose of estimation of man power requirement as interim yard stick.
2. This, interim yardstick shall be used for re-deployment of existing Casual & W/C labour force in work charged establishment for operation and maintenance of various assets in Department of Power.
3. This interim yardstick shall neither be treated as creation of post nor shall be treated as authorisation for any employment or recruitment to any officer of the department.
4. Any new creation or new establishment under work charged establishment shall be affected only with the approval and sanction of the competent authority of the state government.
5. While exercising the re-deployment process of the existing labour force, any short fall shall not be filled up without prior sanctions from the competent authority.
6. With the help of this yardstick, the authorities shall distribute the existing staff, in such a manner that all the assets are taken care of for operation and maintenance leaving “No assets without Men”.
7. This yardstick and guidelines shall be in force till it is repealed / replaced / amended by an order of a competent authority.
8. Zone wise re-deployment schedules implemented and net requirement of labour force shall be prepared and submitted to the government.
